DETAILED ACTION

The following is responsive to Applicant's election received Aug. 5, 2002.

Applicant's election of sitosterol, *Polygonum multiflorum* and *Chrysanthemum morifolium* is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 1-24 are currently pending.

Applicant's elected species were searched and no prior art was found. The search was expanded to include non-elected species, no prior art was found.

Information Disclosure Statement

Applicant's Information disclosure Statement received Nov. 1, 2002 has been considered.

Please refer to Applicant's copy of the 1449 submitted herewith.

Claim Objections

1. Claims objected to because of the following informalities: in claim 6, line 2, after "selected from", the phrase --the group consisting of-- should be added. Additionally at line 6, the "and" after "subspecies" should be deleted and replaced with --or--. In claim 10, line 1, after "selected from", the phrase --the group consisting of-- should be added. In claim 13, line 2, after "selected from", the phrase --the group consisting of-- should be added. In claim 16, line 2, after

“selected from”, the phrase --the group consisting of-- should be added. Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. Claim 10 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. Note the explanation given by the Board of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is followed by "such as" or, the Examiner would submit, "in particular" and then narrow language. The Board stated that this can render a claim indefinite by raising a question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of *Ex parte Steigewald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte Hasche*, 86 USPQ 481 (Bd. App. 1949). In the present instance, claim 10 recites the broad recitation "phytosterol selected from....", and the claim also recites "in particular comprises a sitosterol" which is the narrower statement of the range/limitation.

Allowable Subject Matter

Claims 1-24 are free from the prior art because the prior art does not disclose or fairly suggest Applicant's claimed compositions and methods.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. WO 99/11144.
